

HVAC Designers of Canada Monthly Update

August 9, 2024

Viessman Technical Talk

Thanks to everyone who attended the June Technical Talk with Benjamin Jewell of Viessmann. A copy of his presentation on air to water boilers is now available on the HVAC-DC website for members to view. You can also rewatch the Talk in its entirety. He was a wealth of knowledge.

Viessmann has just dropped its complete line of training that designers may find useful. There are four main topics that designers may find informative:

1. Vitocal 100 AW Heat Pump – Application and Piping
2. Vitocal 100 AW Heat Pump – Sizing and Capacity
3. Vitotron Electric Boiler – Installation and Application
4. Air to Water Heat Pump Theory and Application.

The last course is probably the best as an introductory course if this is a new concept to you. This link: will take you to the registration site: <https://www.viessmann-us.com/en/company/academy/webinars.html>

September Technical Talk

Join us on September 18th as welcome Niss Feiner of Delta T Designs presenting on “Designing for Northern, Remote, and Arctic Communities”. More information and the link to register here: <https://events.teams.microsoft.com/event/a1d30ded-0c5c-4575-87f1-8e93541dbb16@86243c6d-7620-4481-aa01-72d2bf5848f7>.

HVAC Designer Registry

A few months ago, we announced our HVAC Designer Registry Project with support from NRCan. We have officially soft launched the webpage on our website and want to encourage all HVAC Designers to apply. This registry will be promoted nationally as part of the project and we hope to demonstrate capacity for increased requirement of HVAC design. The application form can be found here: [HVACDC-DesignerApplication.pdf](#)

If you have any questions please email admin@hvacdc.ca

Membership

We would like to extend a warm welcome to our new members: Shawn Sales of Green Think Inc., Eddie Calder, Ralph Doncaster, Niss Feiner, Adrian Fernandes and Niqab Khan.
