

## HVAC Designers of Canada Monthly Update

*February 1, 2024*

### January Technical Talk

We had a great technical talk in January on our upcoming Accredited Designer Registry project. For those who were unable to make it, a video recording of the presentation as well as the slides will be available on the members only section of our website.

### February Technical Talk

Join us on February 21st for our next technical talk. We will be discussing the results of our F280 software verification project as well as hearing from some of the software vendors. This invitation is open to people outside of our membership so if you know any one who may be interested, please feel free to pass this flyer along [PresentationFlyer.pdf](#). More information and the link to register here: <https://events.teams.microsoft.com/event/5d74718d-1292-4cec-97df-4cd2a774d54b@86243c6d-7620-4481-aa01-72d2bf5848f7>

Have ideas, suggestions or requests for our upcoming talks? Please email us at [admin@hvacdc.ca](mailto:admin@hvacdc.ca)

### HVAC Designer Registry

In September, you should have received an email about our new HVAC Designer Registry launching. This is a huge step for our association and the industry and we are excited to establish and promote it with support from NRCan. If you have any questions or did not receive the email please let us know. This document reviews required documents for submission: [Designer Registry Application Checklist.pdf](#)

### Heat Pump Performance Article

Our team recently had the opportunity to write a published article on the importance of pre-changeout procedures to optimize heat pump performance. You can read more here: <https://b2electrification.org/importance-pre-changeout-procedures-optimize-heat-pump-performance>

### Membership

We would like to extend a warm welcome to our new members: Michael O'Rourke, and Adam Yurkowski.

As we continue to grow our organization, we would love for you to refer others in the industry to join us! You can share this link with them: [HVAC Designers of Canada - JOIN HVAC-DC \(hvacdc.ca\)](#) or have them contact [info@hvacdc.ca](mailto:info@hvacdc.ca) and we would be happy to help!

### ***We are now on social media!***
