

## HVAC Designers of Canada Monthly Update

*March 3, 2025*

### March Technical Talk

Join us on March 19th as we share about some recent updates on our municipal F280 enforcement and Designer Registry projects. We would love to have our members engaged as we work to increase municipal HVAC design requirements. More information and the link to register here: <https://events.teams.microsoft.com/event/071f5fcf-c9b5-4fa3-b2da-70d16797863c@86243c6d-7620-4481-aa01-72d2bf5848f7>

### HVAC Designer Registry

A few months ago, we announced our HVAC Designer Registry Project with support from NRCan. We have officially launched the webpage on our website and want to encourage all HVAC Designers to apply. This registry will be promoted nationally as part of the project and we hope to demonstrate capacity for increased requirement of HVAC design. The application form can be found here: [HVACDC-DesignerApplication.pdf](#)

If you have any questions please email [admin@hvacdc.ca](mailto:admin@hvacdc.ca)

### HRAI OBC Updater Course

The new Ontario Building Code (OBC) 2024 encompasses significant changes, as the code was harmonized with the 2020 National Building Code (NBC) 2020. If you currently hold HRAI certification for Residential Ventilation using Section 9.32 of the Ontario Building Code, you need to complete an updater training course to ensure you understand the specific regulatory changes and ensure your designs and projects remain compliant with Ontario's updated building standards. This course includes four modules that explain everything you need to know. Upon completion of Module 4, you can proceed to writing the final exam to demonstrate your understanding and mastery of the updated Ontario Building Code and retain your HRAI certification, which will be valid until December 31, 2031. A new worksheet is available on the HRAI website that reflects the requirements of OBC 2024 and you can click [here](#) to download it.

### LEEP Heat Pump Workshops

The LEEP team will be holding two upcoming heat pump workshops that would be interesting to builders, designers, and building officials. Locations and more details at the links below.

Red Deer, March 20, 2025

### Membership

We would like to extend a warm welcome to our new building official members as well as our new Designer Member: Natalie McGregor.

As we continue to grow our organization, we would love for you to refer others in the industry to join us! You can share this link with them: <https://hvacdc.ca/designermembership/> or have them contact [info@hvacdc.ca](mailto:info@hvacdc.ca) and we would be happy to help!
